Art Unit: 3764

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: The specification does not include any reference numbers. Correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

It is not clear as to what the invention is. The specification discloses a condom and a ring. One reason for the vagueness is there are no reference numbers recited in the specification.

6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear as to what the invention is. There are structural limitation positively recited in claim 1 more than one time. In claim 1, it is not clear as to what the water soluble lubricant is in

Art Unit: 3764

reference to. In claim 1, it is not clear as to what the groove is in reference to. In claim 1, it is not clear how the groove is larger than a groove on the other side of the ring.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claim 1 as understood is rejected under 35 U.S.C. 102(b) as being anticipated by Piotti.

Piotti discloses in figures 1-3 a condom b and a ring a.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Persson discloses a condom and a ring. Although this reference discloses structural limitations recited in the claims, it was not used to reject any claims, in the first office action.
